Who is experiencing healthcare challenges?

* In physician practices, one person very often is responsible for multiple roles.
What issues are interfering with the productivity gains?

- Usability problems
- Serviceability problems
- Lack of performance
- Adaptability issues
- Unreliability
- Insufficient security
- Poor durability
- Multiple vendors
What does a typical challenge look like?

The Scenario
- A hospital with 150 beds and 60 nurses; each nurse attends to 20 patients in a 10-hour shift

The Crisis
- One nurse is slowed down when blood splatters on his tablet
- Another’s tablet battery dies; she can’t find a replacement
- A third cannot access patient records

The Outcome
- Practitioners can’t efficiently treat patients within each shift and staff need to work overtime
Desired healthcare tablet solution

- Exceptional usability
- Outstanding serviceability
- Excellent performance
- Great adaptability
- Reliability
- High level of security
- Maximum durability
- Single vendor solution
